

XI UNIAPAC LATIN AMERICAN CONGRESS

"A New Economy is Possible" - Economic development and social capital in Latin America and Caribbean

The aim of the conference is to discuss and exchange ideas and experiences in order to find ways to build "A new economy" at the service of the human person, being at the center of all economic, political, business and social decisions.

The Congress intends to investigate, both theoretically and with specific cases, that a new economy that respects people is possible, with the aim to encourage business leaders to continue on this path in search of a better world. This is not a dream but a real possibility that first of all depends on how we behave and a new attitude towards the problems of the world.

XII SIMPOSIUM CELAM - UNIAPAC LATIN AMERICA

The existence of trust and ongoing dialogue between employers and bishops at national and continental level as well as with local church where companies operate is essential for a common reflection and common actions on issues on Corporate Social Responsibility and for the personal commitment of Christian businessmen to build a new economy without poverty and where justice peace and brotherhood prevail.

The purpose of these meetings is to establish an interaction between the hierarchy of the Catholic Church and entrepreneurs, so that everyone may contribute on a concrete way to build a world more human, more fraternal, more peaceful as God asks us.
